LETTER FROM THE CHAIRS

Welcome, welcome, Future McGill Plumbers (that is a nickname for Engineers not an insult),

Congratulations on getting into McGill Engineering, we're so excited to welcome you!! 🎉

You're about to start a journey that will shape the next four, wah (4 + 1) (or even six!) years of your life. Over four days, you'll meet new people, explore the city, and get your first real taste of what engineering life at McGill is like.

Our team of Frosh Coords has been working hard all summer to put this together, and we can't wait to share it with you.

As you head into Frosh, let us offer you some advice!

- Say yes to things, even the ones that feel a little outside your comfort zone. The people you meet this week, including the ones in your group and the ones you bump into randomly, could end up being your closest friends for the next several years!
- A lot of stuff is not going to make sense at the start of Frosh! What is Godiva's Hymn? Who is Wahmbo? What is an iron ring? If you are ever confused by a reference a leader makes, or want to know more about some of our silly engineering traditions... just ask!
- Don't stress about making a perfect first impression. Everyone is in the same boat, feeling a mix of nervous and excited, so just be yourself.
- Take care of yourself! Drink water, get sleep when you can, and pace yourself, it's a long week. If something ever feels unsafe or uncomfortable, please let your leaders, coords, or the three of us know as we are all here to help!
- WEAR GOOD WALKING SHOES!!! (PLEASE do not wear birks for the Montreal Crawl. I promise you will regret it #beentheredonethat)

Use this week to actually get to know Montreal. Explore the neighborhoods, try the food, figure out the metro. This city is going to be your home for the next few years, so start exploring it now!

Most importantly, and we've already mentioned it, but get to know everyone around you. That doesn't mean just your fellow froshies, but the leaders and staff as well. You're joining the McGill Engineering family for the rest of your life, but especially for the next 4+ years. The blood, sweat and tears of Engineering is infinitely more fun if you don't do it alone.

We're so excited to welcome you into the McGill Engineering community. In the meantime, GET READY FOR THE LFOAT (LITTEST FROSH OF ALL TIME).

See you soon,

Hannah, Rylee & Xander

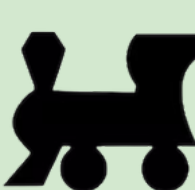

Your Frosh Chairs

LAND ACKNOWLEDGEMENT

We respectfully acknowledge that Frosh takes place on unceded, unsurrendered and ancestral Indigenous territory. This land, known as Tiohtià:ke (also called Montreal), has long served as a site of meeting and exchange for the Kanien'kehá:ka/Mohawk Nation, belonging to the Haudenosaunee Confederacy as well as other Indigenous nations, notably the Anishinaabeg nations.

We recognize the lasting impacts of colonization and oppressive settler colonial structures. It is important for Froshies, Leaders, Staff and Coords alike to learn about the history of this land and how colonization and neo-colonialism continue to impact Indigenous communities today.

We call on frosh participants to engage in meaningful reflection regarding their relationship with the land, and encourage them to expand their knowledge of McGill's impact on Indigenous peoples, and to take action on ongoing injustices. This can be done through supporting Indigenous organizations, engaging with local/federal governments and policies, uplifting Indigenous voices and integrating knowledge, and speaking out against inequities.

CODE
OF
CONDUCT

CODE OF CONDUCT

I - RESPECT

You must at all times respect both your fellow leaders, staff, coordinators and froshies.

III - ALCOHOL

Frosh is an event with drinking, not for drinking. You cannot implicitly or explicitly pressure participants to consume alcoholic beverages, and you must respect those who choose not to drink. You must control your own intake of alcoholic beverages.

II - SAFETY AND WELL-BEING

To ensure the safety and well-being of participants, you must create and promote an emotionally and physically safe environment throughout Frosh. This includes reporting any unsafe behaviour from any participant or volunteer to a Coordinator. There is also a zero-tolerance policy on drugs and illegal substance possession, use and distribution during the week.

CHANCE CARD

Remember - your well being is as important! Take breaks whenever you need

CODE OF CONDUCT

IV - PROFESSIONALISM

You must at all times behave in a manner that upholds the reputation of McGill University and the Engineering Undergraduate Society. You must not engage in any behaviour or attitude that is or has potential to be offensive, obscene, exclusive, or hurtful toward any Orientation Week participant/Leader/O-Staff/Coordinator or any member of the University or general public; this includes, but is not limited to, remarks or actions that disparage race, sex, gender, sexuality, physical or mental ability, age, class, religion, personal choices.

VI - UNWANTED ACTIONS

As Frosh is an environment built on respect, the following unwanted actions could result in consequences not limited to but including bracelet cuts:

- Producing obscene or offensive words on the shirts, bags, bodies or any publicly visible material or space of any participants or staff.
- Partaking in or encouraging the vocalisation/chanting of any potentially obscene or offensive statements, songs, or chants.
- Having any intimate or sexual contact with any Orientation Week participant. The Golden Rule must be strictly upheld, you must keep yourself, and fellow leaders, staff and coordinators accountable.

CODE OF CONDUCT

VII - THE GOLDEN RULE

Sexual relations between different power levels within the Frosh community is strictly prohibited. As a reminder, the power levels are as follows:

Level 1 (lowest): Froshies

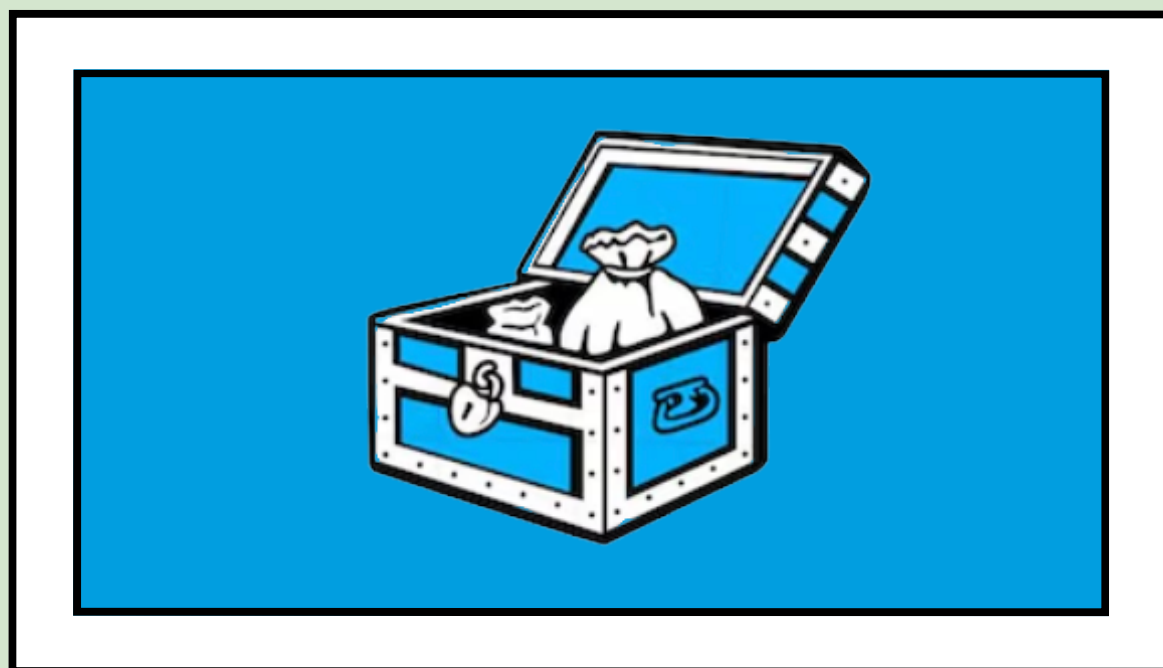

Level 2: Leaders/Staff

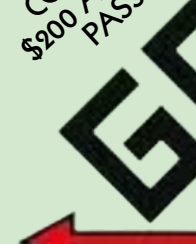

Level 3: Coordinators

Level 4: Co-Chairs

Level 5: VP Internal

These power levels are in effect for all faculties until 24 hours after the last day of Frosh.

SHIRTS & ROLES

WHO IS WHO?

COORDINATORS (COORDS)

Coordinators are the organizers of frosh, feel free to come to us at anytime if you need assistance with pretty much anything!

They are in multicoloured tank tops.

LEADERS

Leaders are in charge of groups of froshies, their role is to guide, include and look after their group!

They are in red- t-shirts.

STAFF

Staff help run events, make sure every froshie is safe and having a good time!

They are in blue t-shirts.

FROSHIES

Froshies are the wonderful first year engineers joining McGill this year! Have fun, discover the school and make friends!

They are in white t-shirts.

ACCESS ALLY

Leaders & Staff with this headband have received extra training to be able to take disclosures. They are here for you whenever you need it.

They will wear an extra orange headband

SOBER LEADER

Everyday, each group will have at least one sober leader, who you can always go to if you need help!

They will be wearing this pin.

SUSTAINABILITY PRACTICES

Frosh is working towards meeting the needs of the present without compromising the needs of future generations. At McGill, this means working towards a shared vision for a sustainable future in a manner that integrates social, economic, and environmental dimensions. Frosh has a huge environmental impact: think of the 5000 shirts, 5000 bags, 5500 SSMU handbooks, countless reg cups thrown out, leftover food and drinks... It's clear that Orientation Week has normalized a throw-away culture at McGill. It is important for members of the McGill community to work together to push for culture change, and we need your help throughout frosh to do this!

Frosh has started several initiatives in recent years to help further reduce our impact on the environment, such as purchasing carbon offsets, making promotional materials opt-in, using compostable materials and limiting the amount of waste produced. Be conscious of your waste throughout frosh, look for signs directing you to compost and recycling bins, and do not contaminate waste bins.

SUSTAINABILITY PRACTICES

Throughout frosh, it is your job to:

- Ensure that you leave every location as **CLEAN** as it was when you found it.
- **ALWAYS HAVE YOUR FROSH MUG** secured on you with your carabiner! The carabiners you receive with your merch are a handy way to attach your mug to your bag or a buckle on your waist. Remind froshies to do the same since the amount of cups available to distribute will be extremely limited.
- Discard all waste into the **APPROPRIATE BINS**.

CONSENT &
 HARM
 REDUCTION

REMEMBER: WATER IS KEY.

Drink as much water as you can during events! Staying hydrated = not burning out after the first day / two days and being able to enjoy all days of frosh!

DRINKING CULTURE AND PEER PRESSURE:

Frosh is an event with drinking, not a drinking event! Drinking is opt-in, always. Although alcohol is present at frosh, it is never the main focus.

Not everyone is comfortable with drinking games, so we try to make sure that games are inclusive of non-drinkers and do not put pressure on anyone to consume alcohol.

If you ever feel uncomfortable in a situation feel free to reach out to any leader, staff or coord to help you out!

MUTUAL RESPECT:

It is also your responsibility to ensure you create an environment throughout frosh that promotes respect, tolerance and community. Everyone deserves respect, regardless of race, ethnicity, gender, sexual orientation, or religious affiliation... And everyone deserves the same amount of respect whether it be staff, leader, froshie, or coord. While people may differ in opinions and disagree, that is no reason to be disrespectful or hurtful. Remember, frosh is a fun and positive community-building event with no room for negativity or disrespect. It would be best if you mentioned everything outlined above during your group introduction to establish a good group dynamic right off the bat.

SEXUAL CONSENT AND BEING AN ACTIVE BYSTANDER:

Consent is the affirmative decision to engage in mutually agreed upon activity and is given by clear words and actions. It is the responsibility of the person initiating an action to gain the consent of the other(s) involved before moving forward. Consent cannot be assumed or implied from silence or passivity. It must be continuous and can be withdrawn at any point. Consent to one form of sexual activity does not imply consent to other forms of sexual activity, like kissing, touching, etc. Just because you are in a relationship or have hooked-up before doesn't mean that the person consents to sexual activity.

DO SOMETHING

Even if you are unsure of what is going on, if something feels off or looks suspicious, it is always better to do something than to ignore a situation and risk further harm. Always be on the lookout, and intervene in all situations ranging from someone being taken advantage of to someone looking uncomfortable. After a situation happens, make sure to follow up after and offer your support. Ask them if they are okay, if they need anything, etc. This will show the Froshie that they are not alone and that someone cares.

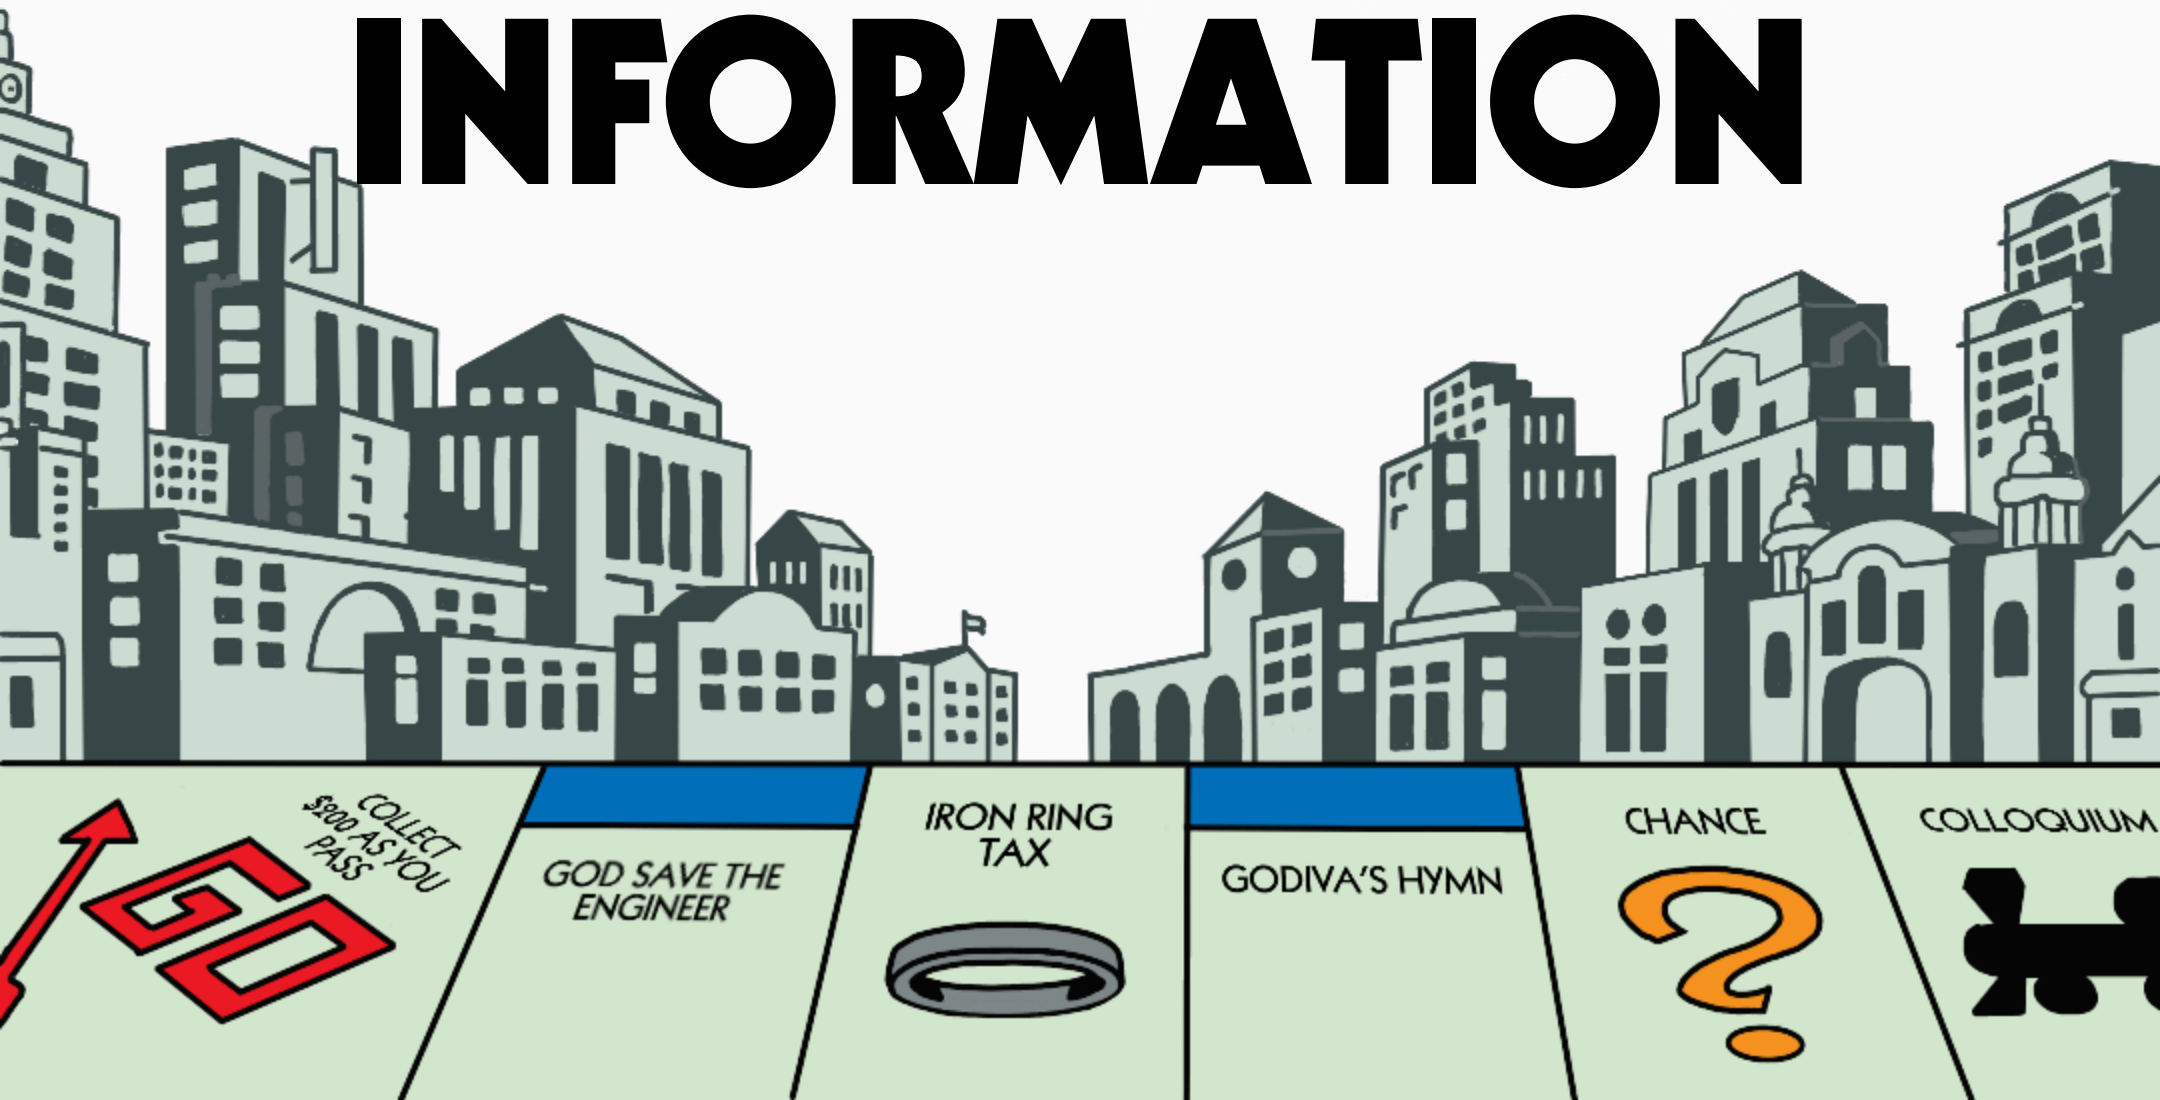

However, make sure not to pry: let them tell you what they want/need at their own pace. Make sure the support you are offering is nondirective.

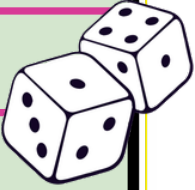

being there for them and offering your support, even if they do not want to speak or do not want anything done at the moment shows that they can turn to you for help at any time.

Finally, your Coords are trained to respond to disclosures of sexual violence. If you are unsure of what to do, or need more support, ALWAYS reach out to a Coord.

SONGBOOK

Reminder, you cannot teach any songs that are not on this list during frosh.

NO CHANTS AGAINST ENGINEERING DEPARTMENTS, OTHER SCHOOLS OR OTHER FACULTIES

Godiva's Hymm

Chorus:

We are, we are, we are, we are, we are the
engineers.

We can, we can, we can, we can demolish 40
beers.

So come, so come, so come, so come, so come
along with us.

For we don't give a damn for any old man who
don't give a damn for us.

Verse:

Godiva was a lady, who through Coventry did
ride

To show to all the villagers her lovely bare white
hide

The most observant villager, an engineer of
course

Was the only one to notice that Godiva rode a
horse

God Save the Engineer

God save the Engineer

Feed us our rum and beer

The Engineer

Bah Bah Bah Bah Bah

We love to drink and sing

Good times we're sure to bring

Ruling with iron rings

The Engineer

Down

D.O.W.N.

Person 1: Hey _____!

Person 2: Hey what?!

Person 1: Hey _____!

Person 2: Hey what?!

Person 1: Show us how you get down!

Person 2: No way!

Person 1: Show us how you get down!

Person 2: Okay!

Everyone: D-O-W-N show us how you get down!
(x2)

Days of The Week (Frosh Version)

Call and (Repeat)

Today is _____:

Monday (Today is Monday), Monday is a coffee day

(Monday is a coffee day)

Chorus

Tuesday (...), Tuesday is a toonie day (...)

Wednesday is a banquet day

Thursday is a crawl day

Friday is a Blues Pub day (FRIDAY FRIDAY FRIDAY)

Saturday's a tossing day

whisper Sunday is the day of rest

Chorus:

Are you all happy? (You bet the *heck* we are)

Badadada da da, da da. Badadada da da, da da.

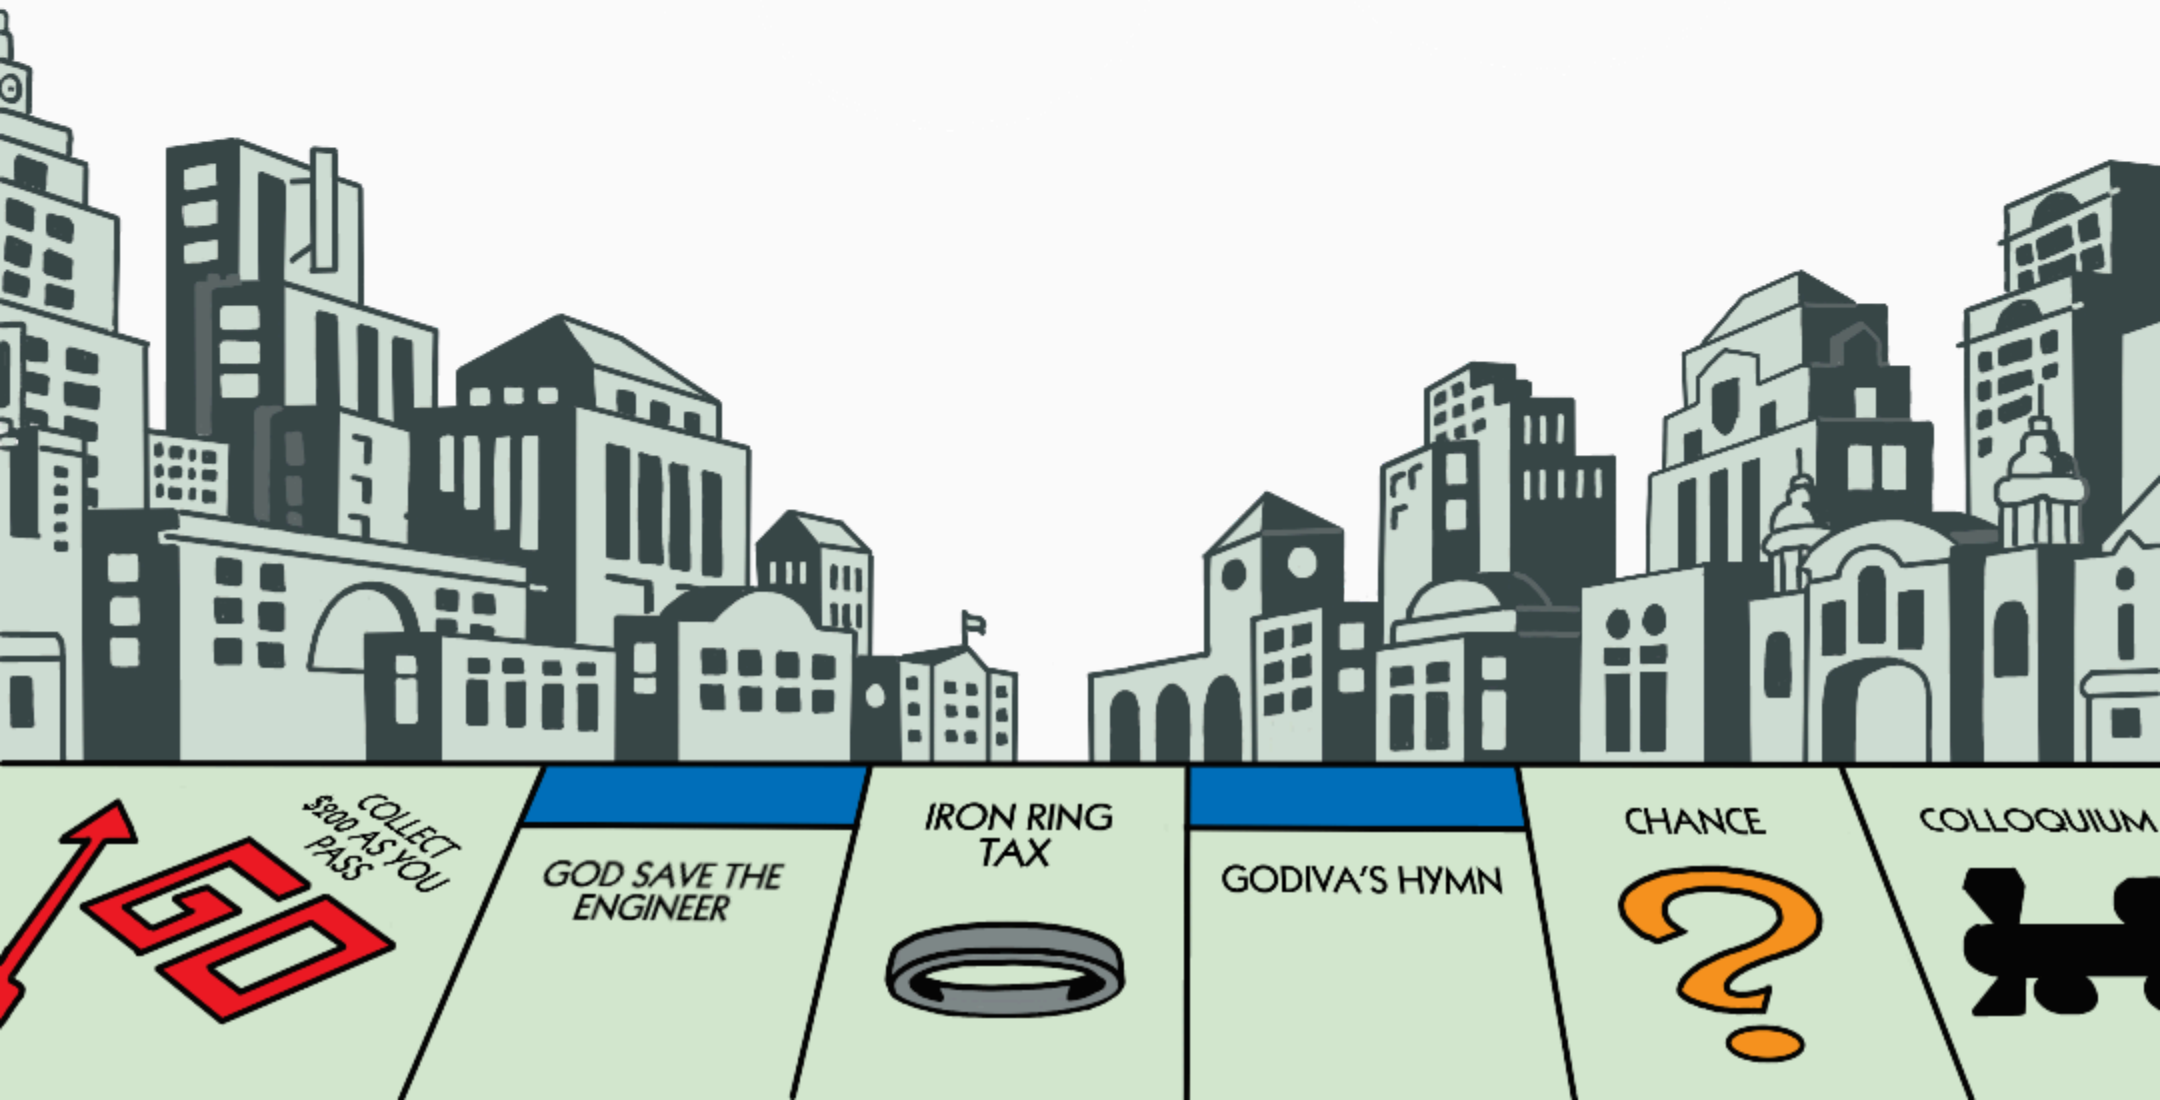

Start at the next day and go through all previous days

APPENDIX

HOW TO GET INVOLVED

POST-FROST

Frosh Blues Pub

Every Friday in the Engineering Common room! Each blues is hosted by a different club / student group, Blues is the best bar on campus with live music, fun drinks and lots of games!

Involvement Day

Clubs and design teams play a huge role in EUS life, and will be showcased early in the semester. Don't miss the recruitment period! Especially make sure to check out Engineering Involvement Day, where all EUS groups will be available for information and questions.

E-Week

Get into departmental spirit and competition with the best start possible to the winter semester! Design! Sports! Debates! 3-MAN! Century Club! Kim-Foo coatcheck!!!!

Departmental Societies

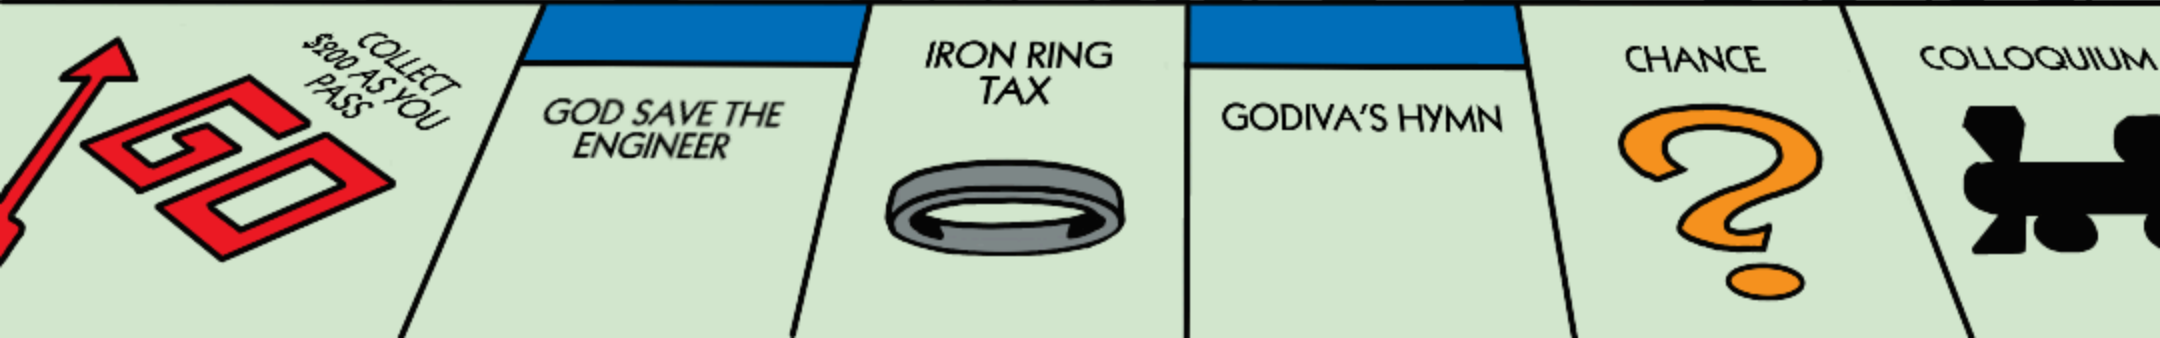

The EUS is the student society for all McGill Engineers, but each Engineering Department has it's own subsidiary student societ which has department-specific academic help, events, and lounge! Be sure to check out their Facebook page so you don't miss out.

MERTW

The classic mid- semester pub crawl is back in early October. Forming a team with your Frosh group is encouraged!

EUS Wiki and Instagram

Check out the mcgill EUS' social media for more information on involvement!
